Dear Dr. Brown,

I would like to introduce myself to you as I have currently opened a new clinic in Toronto, Ontario. My name is Amanda Hart and I am a practicing Registered Massage Therapist who has recently graduated from Humber College. I previously attended the University of Waterloo to obtain my Honours Bachelor of Science Degree in Biomedical Science and Psychology. I am looking to meet other health care practitioners in order to have a better understanding of the professionals around the area to whom I can refer my patients should they need further assistance.

I am a hardworking individual who focuses on patient centered care by assisting in rehabilitation to obtain whole body wellness through well rounded treatments. I provide safe practising by using effective Massage Therapy techniques and tailor the treatment plans to be focused on each individual's needs. I am confident in my competencies and apply my knowledge to the best of abilities. I enjoy working with others to collaborate and determine a course of action for patients who require more rehabilitation than I am able to provide, whether it be due to my scope of practice or other factors.

I have reviewed your clinic and am pleased with the structure and work ethics of your team. I hope to be able to collaborate with you in order to assist patients in rehabilitation. Please do not hesitate to contact me should you have any questions; I look forward to hearing from you.

Thank you for your time,

Amanda Hart, RMT
